How it works

After an entry-level test the participants will be grouped in suitable classes (level A0 – C1) with an average size of 8 students. The German course takes place from Monday to Friday morning and on four afternoons per week. Additionally, the students will take part in 2.5 classes of mathematics or english per week.

Our students are accommodated in communicative host families. A diversified leisure program with creative, cultural and sportive activities as well as some trips into the near and broader surroundings completes this offer*. We also accompany the participants when dealing with the authorities in Lindau

On request we offer a boarding school placement service which is perfect to help students to find the suitable boarding school and to compile all necessary documents for the application.

Accommodation

Together is better!

Therefore, we offer to stay in one of our carefully selected host families. All accommodations are easy to reach. Throughout the living in a host family the students can get in touch with the German culture and the linguistic, intercultural and social skills of the youngsters are encouraged.

Our host families offer single rooms and full board.

More independent students have the option to stay in a single room at our student house (no board included).

Language Course

In the preparation courses, our students learn German intensively and improve their oral fluency as well as their writing skills. Listening, writing, reading and speaking will be equally imparted to enable an optimal transition to a German school or boarding school.

Our experienced teachers impart both language and culture in an age- and learning speed-appropriate manner to the young participants. In addition to our German lessons, we also offer english and math lessons in our institute. Through intercultural learning, we try to give our students an understanding of the German way of life. Those are important elements to ensure transition to a boarder school.

Mentoring & leisure

In all matters being important for a successful stay, the students are intensively supervised by our staff. There are regular talks between the mentor, the host family and the students. Due to regular performance mentoring we are able to document the learning progress and to create a performance report. Furthermore we offer a varied leisure program at our school.

If our students wish any further advices regarding sport programs or music lessons or upcoming doctor's appointments, our administration team will be happy to help. Additionally they will administrate the pocket money for our students in the preparation year.
