**Enrollment fee** + 55 €/ one time

## About the course

In addition to the basic skills of reading, listening, writing and speaking, our modern, communicative and interactive classes also focus on grammar and vocabulary. We have a proven team of experienced teachers who have successfully taught generations of students with great pleasure. In order to achieve the best possible learning success, our qualified and highly motivated teachers use the monolingual teaching method, which means German from day one. The lessons are also complemented by practical learning activities outside the classroom, e.g. shopping at the market, interviews, etc..

In the intensive course students will join the standard course in the morning and expand and deepen it in the afternoon with additional content to match the morning lessons. This way, the knowledge they have acquired is retained longer and they have the opportunity to improve their German skills even more quickly in demanding areas through targeted exercises.
