* excl. 25 € / week summer surcharge on accommodation between 17.06. and 31.08.2024

About the course

After evaluating the current German level in a zoom meeting, we will learn more about the students and their study goals. We advise which University (or Hochschule) is suitable for the applicant. Also we support in case a German Studienkolleg is needed because the applicant's degree is not recognized in Germany for a University application. Next we will evaluate the current transcripts and build a study schedule. This includes the course start, course duration, beginning of exam preparation, picking an exam date and preparing up to three Studienkolleg or university applications.

Listening, writing, reading and speaking are taught in equal measure to facilitate the optimal transition to a German studienkolleg or university. Our experienced teachers make sure that the student will follow the study plan and build up solid language skills. In addition to our Intensive German classes, students will also participate in our exam preparation.
