About the course

In addition to the basic skills of reading, listening, writing and speaking, our modern, communicative and interactive classes also focus on grammar and vocabulary. We have a proven team of experienced teachers who have successfully taught generations of students with great pleasure. In order to achieve the best possible learning success, our qualified and highly motivated teachers use the monolingual teaching method, which means German from day one. The lessons are also complemented by hands-on learning activities outside the classroom, e.g. shopping at the market, interviews, etc..

With the premium intensive german conversation course students will also receive the consolidation they get with the intensive course and expand and deepen the morning course with additional content. This means that the knowledge they have acquired is retained very well and it gives them the opportunity to improve their German skills in demanding areas through targeted exercises. During two additional afternoons, they will also receive a special conversation course which ensures that they can use their knowledge and vocabulary confidently and without interference in a conversation.

This course gives them a high level of confidence in using the German language. Ideal for their job or studies.
