About the course

In addition to the basic skills of reading, listening, writing and speaking, our modern, communicative and interactive classes also focus on grammar and vocabulary. We have a proven team of experienced teachers who have successfully taught generations of students with great pleasure. In order to achieve the best possible learning success, our qualified and highly motivated teachers use the monolingual teaching method, which means German from day one. The lessons are also complemented by practical learning activities outside the classroom, e.g. shopping at the market, interviews, etc..

With the premium intensive german exam preparation course students will also receive the consolidation they get with the intensive course and expand and deepen the morning course with additional content. This means that the knowledge they have acquired is retained very well and it gives them the opportunity to improve their German skills even faster in demanding areas through targeted exercises. During two additional afternoons, they will also receive a special exam preparation. This preparation will familiarize them with the main points of the exam, give them valuable tips on what to pay attention to and through many exercises and repetitions, give them a routine that will get them through the exam safely.
