About our placement service

In combination with the high school preparation program, our boarding school placement service offers a unique experience of getting a German school diploma at a German boarding school.

In order to find a suitable boarding school, we will have an interview with the student in which the student explains his/her interests and preferences regarding the boarding school.

Based on the interview, a boarding school that is suitable for the student from an academic, social and cultural point of view is selected.

After suggesting 1-3 suitable schools, we assist the student to prepare for the first interview with the boarding school. Furthermore, we provide support in preparing application documents and meeting application deadlines.

We will draw up a timetable for the students, so that they reach the required German level (B1-B2) to attend the boarding school and the transition to the boarding school goes smoothly.

Prices include

- Boarding school advice
- Digital German assessment test before & oral one at the start of the course
- Up to three applications to boarding schools
