About the course

In addition to the basic skills of reading, listening, writing and speaking also grammar and vocabulary are practiced in our modern, communicative and interactive lessons. We have a proven team of experienced teachers who have successfully taught generations of students with great pleasure. In order to achieve the best possible learning success, our qualified and highly motivated teachers use the monolingual teaching method, i.e. German from day one. The lessons are also supplemented by practical learning activities outside the classroom, e.g. shopping at the market, interviews, etc

The Premium Intensive German Exam Preparation & Conversation course offers a deeper examination of the content of the intensive course and supplements the morning lessons with additional content. This strengthens the acquired knowledge in the long term. The conversation units and targeted exam preparation are particularly noteworthy, which occur four afternoons a week. These units help you to use your German skills confidently in conversations and exams, which is particularly useful for professional purposes, studying, or naturalization.

This course is ideal for taking your language skills to a higher level and preparing you for demanding communicative situations.
