This module can be booked for 2 weeks and it can also be combined with EPG 13 or EPG 14

This course is aimed at non-native speakers of German teaching German as a foreign language (GFL) to students of all age groups, in various types of schools and for different purposes.

The modules EPG 3-8 are one-week courses and can be combined with other modules EPG 9-14 to form two-week courses. Please check this carefully before making your choice according to our published start dates.

Objectives

This practical course develops the participants' personal language skills and presents various techniques and methodological approaches to teach German as a foreign language.

German as a Foreign Language in Practice

In the **morning** classes you will take part in our language courses, to refresh, expand and refine your personal language skills. At the same time, you will be able to put into practice many of the skills taught in the methodology courses and apply them yourself.

Participants will practice listening, speaking, reading, writing, vocabulary and grammar from a student's point of view and become more acutely aware of the learning difficulties students face. This experience will be discussed in the **afternoon** session.

German as a Foreign Language (GFL) Methodology and Teaching Strategies

The **afternoon** sessions cover essential strategies and techniques of teaching language and discuss how to use them in the classroom. The course programme consists of various modules to meet the needs of teachers of different age groups and school types.

Weekends

Weekend days (on arrival or between two course weeks) are devoted to informal learning through self-study, personal research, cultural visits and activities, exchange of ideas and experience as well as practising language skills in everyday situations.

Intensive German & Sustainability – 1 week

Practical School for teachers of German as a foreign language

MODULE 8

Sustainability

This module is suitable for non-native speakers of German teaching students of all age groups and types of schools, including primary teachers, teachers of CLIL (Content and Language Integrated Learning), Business German and German for Specific Purposes.

Course Content

The demand for sustainability is playing an increasingly important role in the globalized world and should be taken into greater consideration in foreign language teaching.

Sustainability

Sustainability content such as environmental awareness, nature conservation, waste and recycling, regional food production depending on the time of year and current news topics are part of this course. It will include how students' sense of sustainability can be raised and sharpened in foreign language lessons. Participants learn a variety of activities which can be integrated into German lessons without great effort.
